## ChancelCheck® Premium Guidance Note

---

### Chancel Repair Liability Background

---

Chancel repair liability is a medieval anomaly whereby the Church of England and Wales was granted powers to charge those owning “rectorial land” for the upkeep of the chancel of some Parish Churches.

Chancel repair liability affects millions of acres in England and Wales and is still deemed a usual and necessary search by conveyancers.

Chancel repair liability can still be attached to land regardless of whether or not the liability is noted against the title, making the prospective risk unquantifiable.

The Church continues to actively register their interest, to protect their right to charge for chancel repair liability in perpetuity.

### ChancelCheck® Premium Identifies the Problem

---

**ChancelCheck® Premium** **ChancelCheck® Premium** is a unique, online, low cost screening report designed to analyse a large area of land to identify parishes where there is a potential to charge for repairs to the Parish Church chancel, as recorded by The National Archives. **ChancelCheck® Premium** is appropriate for use in the following circumstances:

- Any commercial/residential property, where the property radius from the identified address point is more than **25 metres**

**For which Properties is it Applicable?**

- OWPA properties
- Any property in the vicinity of Central London

#### Certificate

If the area of land selected falls within a parish that does not have the ability to claim for chancel repair liability, the search will be returned as a Certificate.

#### Report

If the area of land selected falls within a parish that has the ability to claim for chancel repair liability, a potential liability will be returned and the search will come back as a Report. **Where an issue has been identified, legal indemnity insurance could be sought to cover the potential risk.**

*NB. ChancelCheck® Premium does not publish the relevant parish name to deter contacting the Church. Doing so will put the Church on notice of a potential liability and may lead to negating insurance cover.*
