

Available from

Assesses the risk of development occurring within a 75-metre radius (measured from the centre of the main structure), while also evaluating the development potential of the subject property itself.

DOWNLOAD SAMPLE

Provides a detailed assessment of development risk within 75 metres of the property's boundaries, alongside expert insight into the subject property's own development potential. Offering greater depth than DevAssess, this report is highly recommended for residential sites over 0.25 acres and essential for clients seeking maximum planning risk clarity.

DOWNLOAD SAMPLE

Identifies the risk of development within 75 metres of the asset's boundaries and provides expert analysis of the land or asset's own development potential. This report is for commercial sites under 20 acres, ideal for clients requiring greater clarity around planning context and future development exposure.

DOWNLOAD SAMPLE

Analyses urban locations for potential development and property modifications, such as basement or rooftop extensions and change-of-use schemes. This is our most comprehensive report particularly suited to high-value or city centre locations where development pressure is typically greatest.

DOWNLOAD SAMPLE

This report explores the development potential of residential or commercial properties under 0.25 acres, helping ensure assets are not undersold. Executors have a responsibility to achieve best value, and this report provides the crucial insight needed to support that duty.
